August 2009

#### **DEPARTMENT OF EDUCATION**

2008–2009 School Year Reports

Dear School Board Members and School Personnel:

The Maine Comprehensive Assessment System is the State's measure of student progress in achieving the State standards known as *Learning Results*. The Maine Educational Assessment (MEA) is administered in grades 3 through 8 to meet these state assessment requirements. Since the spring of 2006, the SAT Reasoning Test<sup>TM</sup> (SAT) has been administered to students in their third year of high school in place of the MEA for state and federal purposes. The move from the MEA to the SAT in grade 11 was made to encourage all students in the goal of attaining college and high-level workplace readiness as well as to measure academic achievement. This year, the mathematics portion of the SAT Reasoning Test<sup>TM</sup> was augmented with 11 additional mathematics items (the Math-A test) to more fully measure Maine's *Learning Results*. The assessment continues to include science testing, which resumed last year after a two-year hiatus. The combined set of tests comprises the Maine High School Assessment (MHSA).

These 2008-2009 Maine High School Assessment Summary Reports contain the results of student performance in critical reading, mathematics, writing, and science reported according to the academic standards described above and disaggregated by student and school characteristics. The MHSA achievement level standards for the 2009 critical reading, writing, mathematics and science sections of the MHSA were determined by Maine educators with specific expertise within the content areas. This report, together with individual student and subject-specific student roster reports, provides support for use in program evaluation and planning. All scores contained in these reports are included for Maine state and federal reporting purposes only. While scores from the SAT may also be used for college admission by most students, they may not be used for that purpose if a student received accommodations during the test administration that exceeded those made available by the College Board.

These results reflect scores based on SAT, Math-A, and Science test questions that were taken by over 15,000 students who were enrolled in their third year of high school across all Maine public schools. The MHSA employs an assessment design that requires students to create a written response to a writing prompt, generate answers to open-ended mathematics and science questions, and in all subjects, select answers to multiple-choice questions. More information about the design, history, and use of the SAT can be found at: <a href="http://www.maine.gov/education/sat\_initiative/">http://www.maine.gov/education/sat\_initiative/</a>.

I look forward to working with you in support of our continued efforts to improve the quality and effectiveness of the instructional opportunities designed to help all students achieve the high standards of the *Learning Results* and graduate from any Maine high school prepared for college, career, and citizenship.

Susan A. Lendron

Sincerely,

Susan A. Gendron

Commissioner of Education

#### CRITICAL READING RESULTS

Test Date: May 2009 SAU: MSAD 14

School: East Grand School

**ACHIEVEMENT LEVELS:** Achievement level definitions describe the quality of a student's responses on state-level assessments in relation to the reading standards for achieving Maine's *Learning Results*. Maine state-level assessments measure the knowledge and skills of students by sampling identified standards within reading at the grade level assessed. Evidence includes responses to multiple-choice items in an "on demand" setting.

**Exceeds the Standards** – The student's work demonstrates the ability to read and interpret literary and informational texts appropriate for the grade level by applying a variety of

reasoning skills and prior knowledge as the student draws in-depth inferences, analyzes

texts for subtle clues, synthesizes information across texts, and uses knowledge of text

Meets the Standards – The student's work demonstrates the ability to read and interpret

reasoning skills and prior knowledge as the student draws inferences, identifies summary

statements, connects ideas within and across texts, and uses knowledge of text structures

**Partially Meets the Standards** – The student's work demonstrates an inconsistent ability to read and interpret literary and informational texts appropriate for the grade level. The

student's ability to use a variety of reasoning skills and prior knowledge varies depending

and across texts, and uses knowledge of text structures and literary devices to support

on the texts as s/he draws inferences, identifies summary statements, connects ideas within

**Does Not Meet the Standards** – The student's work demonstrates a limited ability to read and interpret literary and informational texts appropriate for the grade level. The student's

responses are often incorrect leaving the impression that the student found it difficult to

use a variety of reasoning skills and prior knowledge as s/he draws inferences, identifies

summary statements, connects ideas within and across texts, or uses knowledge of text

structures and literary devices to support comprehension. (scaled score 1100-1128)

and literary devices to increase comprehension. (scaled score 1142-1160)

literary and informational texts appropriate for the grade level by applying a variety of

structures and literary devices to make deeper connections within or across texts to

increase comprehension. (scaled score 1162-1180)

comprehension. (scaled score 1130-1140)

#### WRITING RESULTS

Test Date: May 2009 SAU: **MSAD 14** 

School: **East Grand School** 

ACHIEVEMENT LEVELS: Achievement level definitions describe the quality of a student's response on state-level assessments in relation to the writing standards for achieving Maine's Learning Results. Maine state-level assessments measure the knowledge and skills of students by sampling identified standards within writing at the grade level assessed. Evidence includes responses to a combination of multiple-choice items and items requiring student-created responses in an "on demand" setting.

Exceeds the Standards - The student's responses demonstrate skillful ability to select clear, precise sentence improvements that are free of awkwardness or ambiguity; to recognize grammar and usage errors;

and to select revisions that add to the clarity, precision and overall effectiveness of a passage. The student's

essay demonstrates an effectively developed and insightful point of view on the issue and outstanding

critical thinking, with clearly appropriate examples, reasons, and other evidence to support a position. The essay is well-organized and clearly focused, demonstrating clear coherence and smooth progression of ideas and free of most errors in grammar, usage, and mechanics. (scaled score 1162-1180)	Cum. Total*	0	Ö	Ö	0	2961	7
Meets the Standards – The student's responses demonstrate ability to select clear sentence improvements that are free of awkwardness or ambiguity; to recognize grammar and usage errors; and to select revisions that add to the clarity and overall effectiveness of a passage. The student's essay demonstrates an effectively developed point of view on the issue and strong critical thinking, with generally appropriate examples, reasons, and other evidence to support a position. The essay is well-organized and focused, demonstrating coherence and progression of ideas and generally free of most errors in grammar, usage, and mechanics. (scaled score 1142-1160)	2006-2007	6	32	6	38	6167	41
	2007-2008	2	18	1	10	5564	38

	Cum. Total*	12	30	9	27	17437	39
Partially Meets the Standards – The student's responses demonstrate inconsistent ability to select clear sentence improvements that are free of awkwardness or ambiguity; to recognize grammar and usage errors; and to select revisions that add to the clarity and overall effectiveness of a passage. The student's essay demonstrates a developed point of view on the issue and some critical thinking, but may do so inconsistently or with inadequate examples, reasons, or other evidence to support a position. The essay is generally organized and focused, but may demonstrate some lapses in coherence or progression of ideas and may contain errors in grammar, usage, and mechanics. (scaled score 1130-1140)	2006-2007	12	63	9	56	4723	31
	2007-2008	1	9	1	10	4679	32

	Cum. Total*	14	35	11	33	13889	31
Does Not Meet the Standards – The student's responses demonstrate limited ability to select clear sentence improvements that are free of awkwardness or ambiguity; to recognize grammar and usage errors; and to select revisions that add to the clarity and overall effectiveness of a passage. The student's essay demonstrates a vague or seriously limited point of view on the issues and weak critical thinking, with inappropriate or insufficient examples, reasons, or other evidence to support a position. The essay is poorly organized and/or focused and may contain an accumulation of errors in grammar, usage, and mechanics that interfere with understanding the message of the essay. (scaled score 1100-1128)	2006-2007	1	5	1	6	3227	21
	2007-2008	8	73	8	80	3376	23

#### SCIENCE RESULTS

Test Date: May 2009 SAU: MSAD 14

School: East Grand School

**ACHIEVEMENT LEVELS:** Achievement level definitions describe the quality of a student's responses STUDENTS AT EACH ACHIEVEMENT LEVEL on state-level assessments in relation to the science standards for achieving Maine's Learning Results. School SAU State Maine state-level assessments measure the knowledge and skills of students by sampling identified standards within science at the grade level assessed. Evidence includes responses to a combination of Ν % Ν % Ν % multiple-choice items and items requiring student-created responses in an "on demand" setting. Exceeds the Standards – The student's work demonstrates in-depth understanding of essential concepts in science, including the ability to make multiple connections among central ideas. The student's responses demonstrate the ability to synthesize information, analyze and solve difficult problems, and 2008-2009\* 0 0 0 602 4 explain complex concepts using evidence and proper terminology to support and communicate logical conclusions. (scaled score 1162-1180) Meets the Standards – The student's work demonstrates a general understanding of essential concepts in science, including the ability to make connections among central ideas. The student's responses 2008-2009\* 36 3 38 5431 37 demonstrate the ability to analyze and solve routine problems and explain central concepts with sufficient clarity and accuracy to demonstrate general understanding. (scaled score 1142-1160) Partially Meets the Standards – The student's work demonstrates incomplete understanding of essential concepts in science and inconsistent connections among central ideas. The student's responses 0 0 3876 2008-2009\* 0 26 demonstrate some ability to analyze and solve problems but the quality of responses is inconsistent. Explanation of concepts may be incomplete or unclear. (scaled score 1134-1140) Does Not Meet the Standards - The student's work demonstrates limited understanding of essential concepts in science and infrequent or inaccurate connections among central ideas. The student's 7 5 63 2008-2009\* 64 4958 33 responses demonstrate minimal ability to solve problems, Explanations are illogical, incomplete, or missing. There are many inaccuracies. (scaled score 1100-1132)
